APPLICATION DEVELOPER

ADRIEN MAISAK

+33-786-532-442 | adrien.maisak@gmail.com | 75 rue Ernest Renan, Toulouse, France | https://dayrisea.github.io/

PROFILE

Application developer after seven years in product-data and IT roles. Comfortable using AI coding agents as a force multiplier.

PROFESSIONAL SKILLS

- Create RESTful APIs.
- Integrate third-party platform APIs.
- Create unit, integration, functional and load tests.
- Define functional and technical specifications based on client needs.
- Keep the repo maintainable, scalable and secure.
- Integrate LLM features (structured outputs, validation/retry loops, etc.).
- Direct AI coding agents: write task specs and guardrails, build custom skills and review loops, arbitrate code reviews.

PROFESSIONAL EXPERIENCE

Application developer
07/2025 - Present

Freelance

Mainly one core project (a social media assistant SaaS), plus personal side-projects to explore new technologies.

Social media coach:

- Facebook/Instagram publishing and analytics via Meta Graph API, LLM coach with structured outputs, gamification, subscriptions, RBAC.
- Full-stack SaaS: FastAPI async, SQLAlchemy 2, PostgreSQL backend, Next.js 16, React 19, TypeScript frontend.
- JWT auth, encryption at rest, Meta/GDPR data-deletion compliance; ~1,500 tests; deployed on Render, Vercel, Neon and Cloudflare R2.

Side-projects:

- Architected and specified a TypeScript system (Fastify, Redis, BullMQ, PostgreSQL, Next.js) to demonstrate serving 10,000 simulated buyers for 500 units with zero overselling (demo scaled numbers, interest was in system design).
- Idempotent async order pipeline, circuit breaker, live SSE dashboard, k6 load orchestration, ~2,100 tests.
- Deployed on Fly.io with scale-to-zero and Machines API automation.

PIM / DAM Manager
04/2017 - 11/2022

ALTERAL

- Maintain and develop the PIM, its structure and attributes.
- Collect, process, analyze and distribute product information. +120% sourced articles (from ~55,000 to 121,000).
- Improved human and automated processes involved.
- Encourage suppliers' participation: +43% (from 87 to 124) suppliers.
- Side project-manager role: implementation of a contract-management solution (specifications, tests, bug reporting with the provider).

CMDB Administrator
08/2011 - 10/2013

Groupama Supports et Services (G2S)

- Designed and monitored consistency and integrity reports; collected and consolidated data from various sources.
- Controlled architecture-file modelling, version upgrades, routine management and user support.

IT SKILLS

Languages
TypeScript, Python, SQL, HTML/CSS

Backend
Node.js, Fastify, FastAPI, Django / DRF, Flask, SQLAlchemy/Alembic, Drizzle ORM, Pydantic, Zod

Frontend
React, Next.js, Tailwind, Shadcn/Radix, TanStack Query, Zustand

Data & Messaging
PostgreSQL, Redis (Lua, Pub/Sub), BullMQ, SSE

AI / LLM
OpenAI SDK, prompt engineering, LLM evaluation, coding agents and harnesses.

Testing
Vitest, Pytest, Jest, k6, Selenium, Locust

DevOps & Cloud
Docker, Docker Compose, Dev Containers, GitHub Actions, GitLab CI/CD, Hosting (Fly.io, Neon, Cloudflare R2/S3, etc...)

Tooling
Git, GitHub / GitLab, pnpm, Turborepo, Biome, Ruff, Poetry, Postman, ...

Security & Ops
JWT/OAuth2, CSRF, rate limiting, encryption at rest, logging, Sentry, Grafana

EDUCATION

OPENCLASSROOMS 2023 - 2024
Application developer, Python, RNCP level 6

SUPINFO INTERNATIONAL 2008 - 2013
IT Specialist

LANGUAGES

French
native

English
upper-intermediate (B2)

INTERESTS

Audiobooks

Board games / Video games

AI enthusiast
